

ALEX RILEY

I can do anything because I can learn anything.

(757) 561-0387 | alexcancode@yahoo.com | [Portfolio](#) | [Medium Blog](#) | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Motivated software developer with a Bachelor of Science in Computer & Information Science and hands-on experience in full-stack development using Java, C#, JavaScript, HTML5, CSS3, React.js, Python, C++, Kotlin, and SQL. Skilled in developing mobile and web applications, debugging, version control (GitHub), Agile methodologies, responsive design, and QA testing. Experienced in functional and usability testing, collaborating with cross-functional teams, and delivering maintainable code. Eager to contribute technical and problem-solving skills to innovative software development projects.

EDUCATION

Bachelor of Science in Computer & Information Science – Software Development
ECPI University – Jan 2025
Magna Cum Laude, Dean's List Honoree

CERTIFICATIONS

Fundamentals of Deep Learning – NVIDIA, 2025
Responsive Web Design – freeCodeCamp, 2023

TECHNICAL SKILLS

Languages & Frameworks:

Java, JavaScript, C#, C++, Python, Kotlin (Android), SQL, CSS3, HTML5, React.js

Databases:

MySQL, SQLite, JDBC

Tools & Platforms:

GitHub, Jira, TestFlight, Windows, macOS

Concepts & Methodologies:

Object-Oriented Programming (OOP), Agile methodologies, Debugging, Security

PROFESSIONAL EXPERIENCE

Beta Tester

WoafMeow (Contract) – Aug 2025

Stars Align (Contract) – Jul 2025

- Conducted functional, usability, and exploratory testing of key mobile app features using TestFlight
- Collaborated with developers and QA team members via Discord to identify, track, and resolve defects
- Provided actionable feedback to improve user experience (UX) and interface performance (UI)

Lead Developer

TriSphere Apps (Internship) — Dec 2024 – Aug 2025

- Led feature development and version control for Android applications
- Oversaw code integration for a multi-developer remote team using GitHub
- Collaborated with designers, PMs, and QA teams via Jira to align delivery with product goals
- Applications: Gem Genius AI, MoonLeaping

PROJECTS

Book Catalog (Java, JDBC, SQL)

- Developed a full-featured CRUD application to manage a personal book catalog.
- Implemented SQL database operations for adding, updating, deleting, and searching records by title, author, and category.
- Applied object-oriented programming principles to design modular, maintainable code.
- Ensured data integrity and optimized query performance for responsive UX.
